

# DIY Handbell Pattern Gift Card Holders

Print page 2 of this document, the handbell pattern, on one side and page 3, the template, on the back of 8-1/2 x 11" card stock. For best results, use a light colored stock as the color of the paper will affect the color of the bells. Be sure to print at 100% or "No Scaling" in the printer settings.

Cut or slit along the dashed lines, then score and fold along the solid lines with the bell pattern on the outside. The fold lines are light enough as to be mostly imperceptible in the folds. This template will yield two holders.

Insert your gift card into the diagonal slots, fold, and insert the flap into the remaining slot.
