

# Paper Cup Candy Holders

You will need:

- colorful paper
- tape
- cylinder for rolling

Trim paper to a  
rectangle shape and  
roll around cylinder

Tape at long edge

Fold edges  
over base of  
jar and tape

Cans work  
great also

Gently slide paper  
cup off glass/jar.

Folded side will be  
the base.

# Tips

- trim paper rectangle to a 2:1 ratio (ie, 12 in X 6 in)
- experiment with newspaper first; thin paper will need multiple layers around cylinder
- the folded end could be bunchy; fold paper edges firmly and tape while paper is still on glass/can

Try musical paper with  
chocolate bells!

# Fill and share

- Great use for scraps of wrapping paper!
- Easy enough to give to all your ringers!
