

Handbell Stencil Decorating Ideas

Print out the attached stencil and carefully cut around the handbell so you can use both the small handbell cutout and the full page silhouette.

You will need small amounts of spray paint. The gold paint on the left is edible!

To surround the bell outline with color, place the small handbell cutout on the paper and spray paint around the cutout. Let the paint dry for a few minutes then remove the cutout.

To fill in the bell outline with color, place the full page silhouette on the paper and tape the cutting line. Spray paint inside the design. Let the paint dry for a few minutes then remove the silhouette.

Simple decorating ideas for you and your ringers!
