AREA 12 HANDBELL LOAN PROGRAM

California, Nevada, and Hawaii music teachers, would you like the use of a three octave set of handbells or handchimes to add a new dimension to your music class?

Area 12 encourages schools and other educational institutions, both public and private, to develop educational programs using handbells and handchimes.

To support the development of such programs, Area 12 has six 3-octave sets of handbells and three 3-octave sets of handchimes for loan. Each set comes complete with foam pads and instructions.

If you think you would like to start a bell program at your school, there is also no better way to build interest and support than to borrow a set of bells so that others can see firsthand why you're so excited about them.

For further information, questions, or to discuss in more detail the possibility of borrowing bells or chimes for your program, please contact the Area 12 Education Director at education.area12@handbellmusicians.org.
